

STATEMENT OF PURPOSE

RS19221

With the emergency nature of the creation of the Idaho Protection Against Invasive Species Sticker program, some elements critical to managing an ongoing program were not included in the initial legislation. This bill will put into place the resources necessary to allow the program to pay for itself and to reimburse local vendors for their costs. The bill also clarifies the conditions for a discounted outfitters rate and mirrors boating registration validation sticker provisions for display by dealers and duplicate stickers.

FISCAL NOTE

There will be an ongoing fiscal impact to Idaho Parks and Recreation's dedicated funds. Based upon the projected sticker fees, IDPR will need \$275,000.00 of spending authority in Operating in addition to the original \$65,000 already authorized for fund 0243. This will allow IDPR to cover costs incurred for the sticker program up to the amount allowed by statute.
